RELEVANT EXPERIENCE

Card-Monroe Corp May 2024 - August 2024
Software Engineering Intern Chattanooga, TN

- Returned to CMC to create working Vue & .NET HMI prototypes to propel the company into the IOT world.
- Developed a Python application to calculate motion points, enabling smooth acceleration of machine components.
- Worked with users to create functional, user-first UI components that enhance the UX of our devices.

Card-Monroe Corp. May 2023 - August 2023
Software Engineering Intern Chattanooga, TN

- Researched and developed technologies and strategies to manage the full software development life-cycle.
- Performed full-stack software development to create a React & .NET Core Web Application from scratch.
- Leveraged my technical expertise and collaborated with industry experts to enhance user experience and streamline operations within the manufacturing environment.

Card-Monroe Corp. May 2022 - July 2022
IT Intern Chattanooga, TN

- Proficient in Active Directory management, including user account creation, group policies, and security settings.
- Performed various Help Desk tasks, such as providing technical support to users, troubleshooting and resolving software and hardware issues, and managing IT inventory.

Catoosa County Public Schools May 2021 - May 2022
Technology Intern Ringgold, GA

- Successfully repaired and deployed a wide variety of devices including Chromebooks, desktops, and laptops, by performing hardware and software repairs, configuring device settings
- Ensured all devices were fully functional before deploying them to users.

Whitfield County Public Schools July 2020 - August 2020
IT Intern Dalton, GA

- Repaired thousands of Chromebooks, diagnosed and corrected a wide range of technical issues, performed hardware and software repairs, and ensured all devices were fully functional before returning them to users.
- Contributed effectively as a team member in a team of interns, supporting the repair process, participating in training, and mentoring new team members, resulting in a consistent and efficient workflow.

CAMPUS & COMMUNITY INVOLVEMENT

Student Alumni Council January 2023 - Present
2024 Member of the Year, Marketing Committee, Traditions Committee Athens, GA

- Member of the Student Alumni Council at the University of Georgia, actively working towards promoting UGA traditions, fostering student philanthropy, and connecting students with alumni.
- Actively contributed and engaged in the planning and execution of various events hosted by the council such as the Class Ring Ceremony, Founders Day, Freshman Welcome, Homecoming, and Dawg Day of Giving.

UGA Hacks 9 February 2024
Competitor Athens, GA

- Competed in UGA Hacks 9 on a team of 4 developers that created a full-stack React, Bootstrap, & MySQL CRUD application within the 36-hour marathon period.
- Created GoodGreek, a platform for sharing and discovering Greek-life philanthropy opportunities.

Alpha Sigma Phi January 2023 - Present
Philanthropy Council Member, Founding Father Athens, GA

- Founded the University of Georgia's Kappa Phi chapter of Alpha Sigma Phi fraternity.
- Member of the Philanthropy Council, contributing to impactful community service initiatives and fundraising efforts.

Business Today International Conference November 2024
Attendee New York, NY

- Top 2% of applicants to Business Today's 50th International Conference
- Selected to participate in the conference, and network with leading business executives from top Fortune 500 companies
